Business Article

We have been featured in Caring News Magazine's July to September 2023 issue.

In the 2-page advertorial, we've shared insights on originator vs generics, getting an up-close view of the factors contributing to the surge of medical bills, and understanding the economic impact of locally produced niche and highly technical generics with global standard facilities.

This magazine feature is part of our ongoing initiative to educate the public on the accessibility of quality medicines in Malaysia and cultivating confidence in locally manufactured generics drugs.
