

Empowering Future Talent: Novugen & University of Malaya Sign MoU 29 September 2025

Novugen is proud to mark another milestone with the formalization of a partnership with Malaysia's oldest and most prestigious public university, the University of Malaya (UM), through a Memorandum of Understanding (MoU).

Held on 29 September 2025 at the Faculty of Pharmacy, the event began with welcoming remarks by Dr. Izyan Abdul Wahab, Deputy Dean of Undergraduate Programme and Student Affairs, followed by an insightful sharing by Felicia Tan from Novugen. The ceremony concluded on a high note with the official signing and token exchange that marked the beginning of a meaningful and forward-looking collaboration.

As part of Novugen's ongoing commitment to bridging academic learning with real-world pharmaceutical experience, and in line with similar MoUs signed with other leading institutions, this partnership with UM aims to offer students hands-on exposure to pharmaceutical practices, while nurturing future talent through knowledge sharing and research collaboration.

The University of Malaya consistently ranks among the top universities in Malaysia and globally. Partnering with such a prestigious institution further reflects Novugen's strong commitment to nurturing talent and driving innovation within the pharmaceutical industry.
