

A Powerful Moment That Reinforces Our Purpose

20th Malaysian Society of Hypertension Annual | 2 May 2025

Held in Kuala Lumpur, the 20th Malaysian Society of Hypertension Annual Scientific Congress 2025 brought together healthcare professionals, thought leaders, and industry players to exchange insights and strengthen partnerships. For Novugen, one of the standout moments was a meaningful interaction between our colleague Chloe Lim from Sales & Marketing and Malaysia's former Prime Minister, Tun Dr Mahathir Mohamad.

Chloe introduced Novugen and shared our milestones, to which Tun Dr Mahathir listened with interest. With sincere curiosity, he asked, "Which country is this company from?" Chloe proudly replied, "Novugen is from Malaysia." Tun Dr Mahathir nodded with pride: "Very good. I'm glad to see a Malaysian company doing so well." His warm and encouraging words were a powerful affirmation of our journey.

As a proud Malaysia-based pharmaceutical company with a global outlook, this moment reaffirmed our commitment to contributing to national progress and placing Malaysia on the global pharmaceutical map. Fuelled by innovation and passion, we will continue to deliver high-quality medicines that serve patients both locally and around the world, because world-class pharmaceuticals can, and do, begin at home in Malaysia.
