

Business Leaders Workshop | 19 & 20 September 2025

Forging Ahead to Close 2025 Strong

As we enter the final stretch of 2025, our recent Business Leaders Workshop on September 19 and 20 provided a valuable opportunity for our leadership team to reflect on progress and renew our focus on achieving key organizational goals. This two-day event highlighted the importance of adaptability, leadership agility, and a strong culture to successfully navigate an evolving business landscape.

It was also a timely launch of our 1.5-year Leadership Development Journey for our Business Leaders. The workshop reinforced our commitment to transparency, accountability, and cross-functional collaboration. United by a shared mindset of continuous growth and excellence, we are energized and ready to close 2025 on a high note, aligned, motivated, and focused on delivering success.
