

Novugen Evidence Exchange (NEX) Sabah: General Physician Evidence Exchange 10-11 October 2026

Novugen Evidence Exchange (NEX) Kota Kinabalu gathered over 130 healthcare professionals for two days of scientific dialogue and practical clinical insights focused on evidence-based patient care.

Through interactive sessions covering key therapeutic areas, participants discussed the latest clinical evidence, shared real-world experiences, and reflected on approaches to everyday clinical practice.

At Novugen, we believe that advancing healthcare goes beyond providing medicines. Through initiatives such as NEX, we remain committed to supporting continuous medical education and fostering scientific exchange among healthcare professionals.

A huge thank you to all speakers and attendees who helped make NEX Kota Kinabalu 2026 a success!
