

Novugen's First Halal Certified Products

We are proud to share that Novugen has received our very FIRST Halal certification for 6 of our products (comprising of 12 SKUs), manufactured in our officially Halal compliant - Novugen Pharma manufacturing facility.

The Halal certification by Jabatan Kemajuan Islam Malaysia (JAKIM) is a portrayal of our critical respond to the increasing demand of Halal products in Malaysia, a Muslim majority country and our ambition to meet the burgeoning demand of Halal products in the global market in the future.

We are truly proud of the people of Novugen for their hard work, dedication, and perseverance to ensure accessibility of our products to all patients locally and globally.
